

Adobe Security Upgrade Alters Schedule

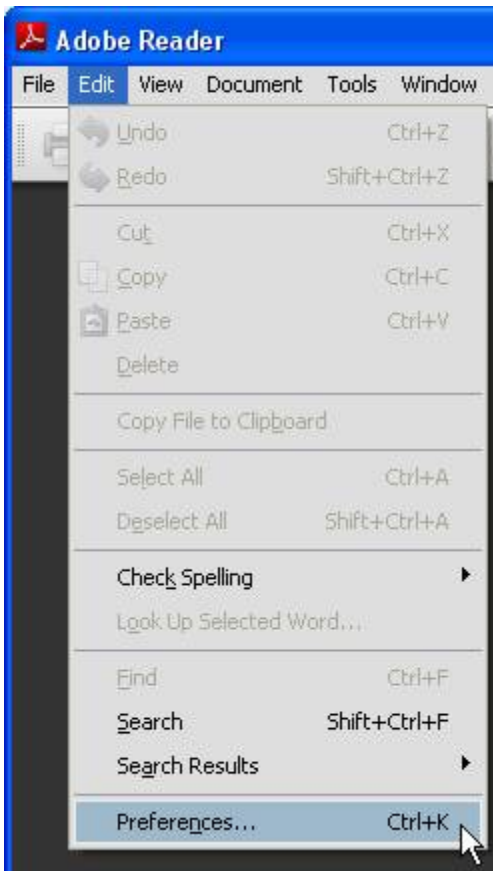

The latest Adobe Reader now defaults the security settings to not allow data to populate a PDF. In order to get the Schedule feature to work you will need to Trust the website by adding the URL to the Privileged Locations with the Preferences/Security (Enhanced) area of Adobe Reader.

Follow the instructions below;

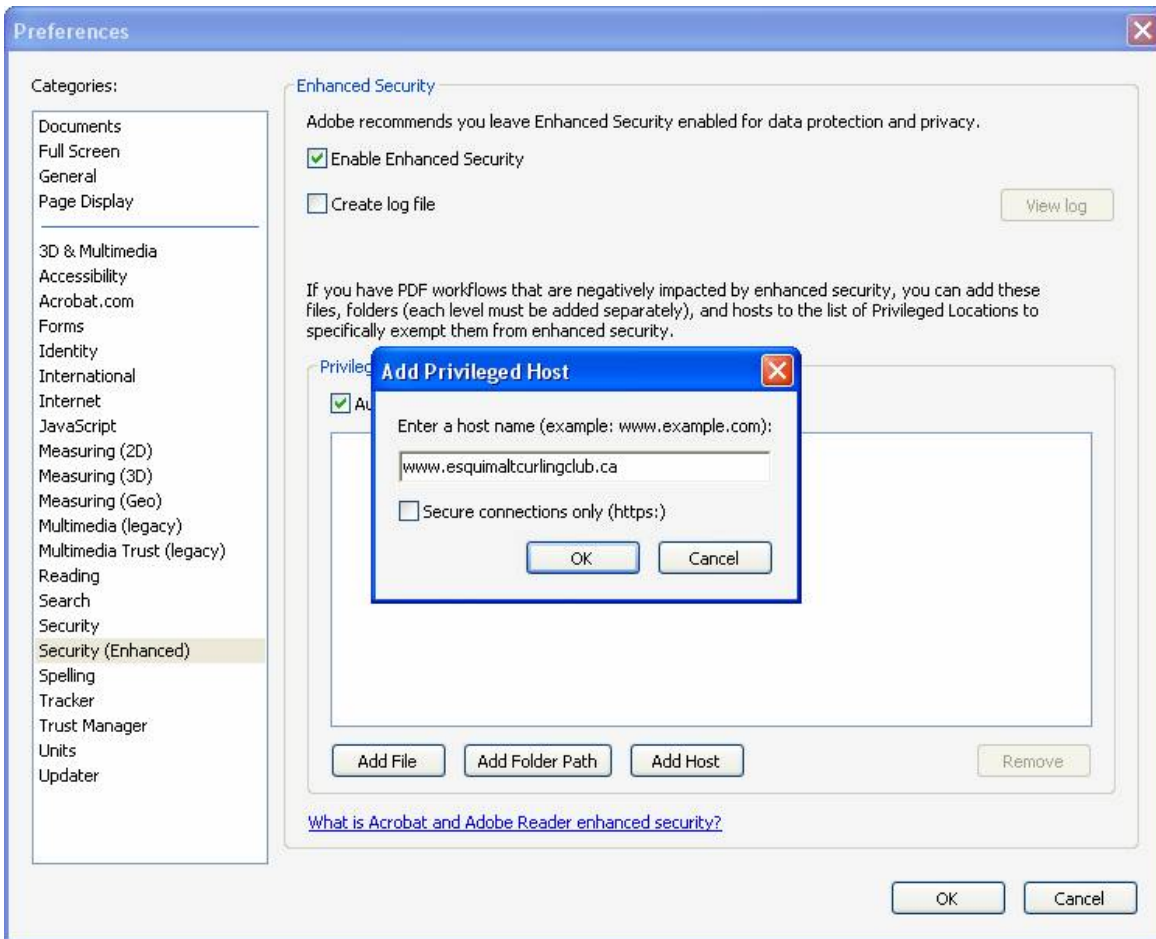

1. Open Adobe Reader
 - a. Click Start
 - b. Click All Programs
 - c. Click Adobe Reader
2. Select Edit > Preferences
3. Select Security (Enhanced) and Click Add Host
 - a. Enter 'www.esquimaltcurlingclub.ca'
 - b. Click OK, Click OK
4. Ensure the default setting to Display PDF in Browser

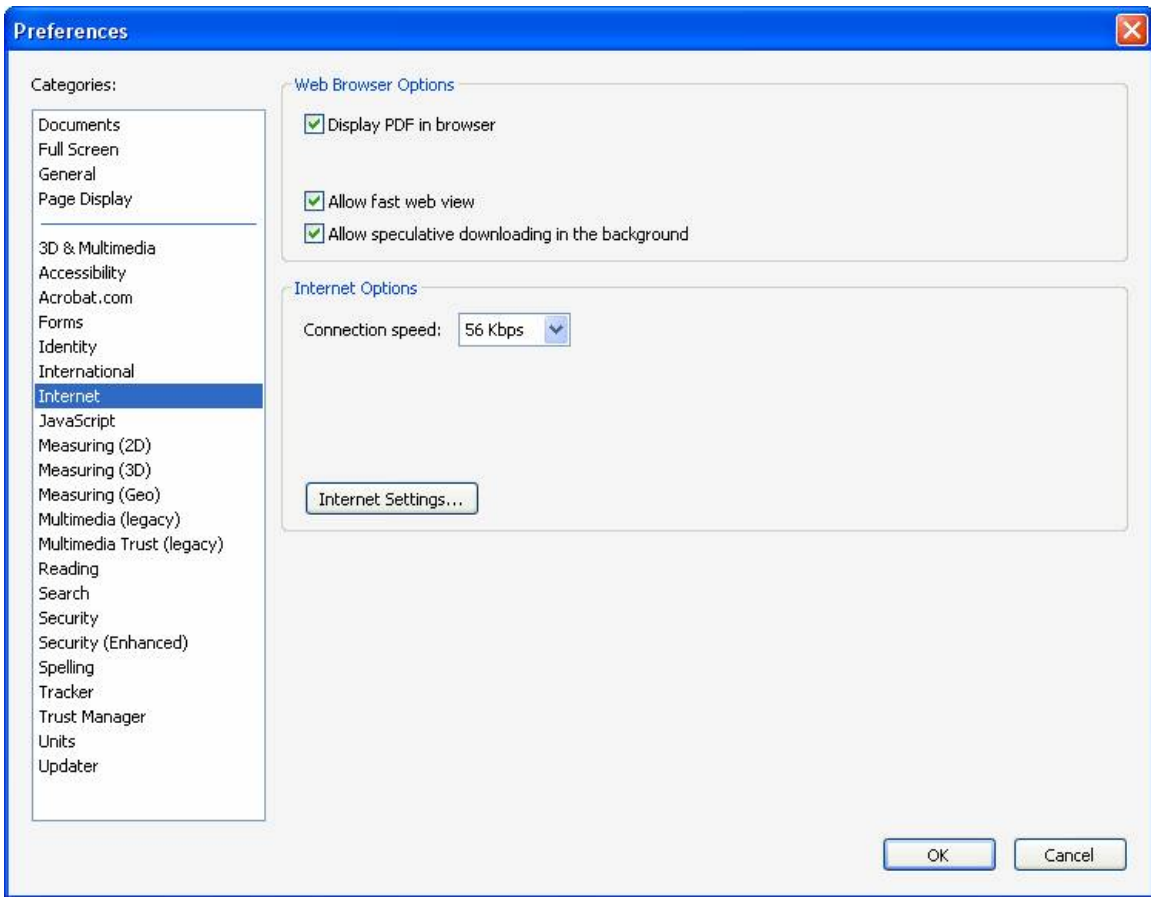

Step 1

Step 2

Step 3

Step 4

Now you can use the Schedule Feature of the website
